

Social Responsibility

Origin Holdings has adopted a proactive rather than reactive stance in our societal roles within our communities. We incorporate ethical decision making in all aspects of our business operations; thus ensuring the presence we establish within our communities encourages the holistic development and growth of their environment, economy and social dynamics.

We have a strong sense of responsibility on how we relate to the ills of our existing society. Origin Holdings has continued to contribute to areas of Animal Rights Preservation, Sports, less privilege Societies, Health, Culture and Social Development.

We also promote awareness of African Development and Integration.

We work to enable the achievement of the 2020 vision not solely through our business operation but also with the relationships we form within the communities we work in. Our contribution to these organizations is in support of attaining the Millennium Development Goals, like, the eradication of poverty, promotion of gender equality, economic growth and improvement of maternal health, within Nigeria. This is a way of reaching out and impacting positively on our Earth and Life in General.
